PLM Analyst → Aspiring Associate Project Manager | Business Analyst | Scrum | PMO — channelling 2.5 years of Agile sprint ownership, cross-functional stakeholder coordination, and enterprise delivery into programme leadership roles.

JOB PROFILE

Delivery-focused professional with 2.5+ years at Accenture, transitioning into Associate Project/Programme Management, Business Analysis, and Scrum-led roles — bringing hands-on Agile sprint execution, stakeholder coordination, KT leadership, and cross-functional delivery experience from enterprise PLM engagements.

PROFESSIONAL PROFILE

Results-driven delivery professional with 2.5+ years of experience at Accenture, leading knowledge transfer sessions, coordinating cross-functional teams, and managing end-to-end sprint delivery within Agile frameworks. Demonstrated ability to own stakeholder interactions, drive POC deployments from requirements through to production, and mentor junior team members — all within a global enterprise PLM environment. Now actively transitioning into Associate Project/Programme Management, Business Analyst, and Scrum-led roles, leveraging a structured delivery mindset, strong communication skills, and Agile execution experience to govern projects and drive impactful outcomes.

CORE COMPETENCIES

Stakeholder Management	Sprint Planning & Backlog Grooming	Requirement Analysis	Risk & Issue Tracking
Cross-functional Collaboration	Knowledge Transfer & Mentoring	Agile / Scrum Delivery	Process Documentation

PROFESSIONAL EXPERIENCE

Packaged App Development Analyst

Oct 2023 – Aug 2026

Accenture | Chennai, India | Full-Time

Key Responsibilities

- Led end-to-end sprint delivery across multiple Agile cycles — owning user story management, bug resolution, and incident report (IR) coordination from assignment through to client-accepted closure.
- Served as the primary Knowledge Transfer lead, designing and conducting structured onboarding and upskilling sessions for team members and new joiners across PLM modules.
- Acted as a cross-functional liaison between development and client teams, managing stakeholder expectations, coordinating demo sessions, and ensuring delivery aligned to business requirements.
- Drove POC ownership from requirement analysis through to production deployment — Extended Stamping & Watermarking and PDF-A Generation — presenting outcomes to client stakeholders and gaining sign-off.
- Contributed to Agile sprint ceremonies including planning, retrospectives, and stand-ups, ensuring sprint goals, timelines, and quality benchmarks were consistently met.

Supporting Technical Deliverables (Evidence of Execution)

- Delivered Proof of Concept (POC) solutions including Extended Stamping & Watermarking and PDF-A Generation using Ghostscript within Teamcenter environments.
- Conducted knowledge transfer sessions to upskill team members across ITK, BMIDE, and PLM-easy modules.
- Leveraged GitHub Copilot to accelerate ITK customisation and code quality improvements.
- Delivered user stories, bug fixes, and incident reports (IRs) within Agile sprint cycles using JIRA.
- Gained comprehensive expertise across the full Teamcenter stack: ITK, BMIDE, PLM-easy, Dispatcher, Ghostscript, RAC & AWC.

Key Achievements

- Delivered two client-recognised POCs — Extended Stamping & Watermarking and PDF-A Generation — demonstrating end-to-end delivery ownership and stakeholder management in a global enterprise environment.
- Organised team engagement activities including Fun Friday events and team outings, contributing to a positive and collaborative team culture.

Business Analyst Jr. (Intern)

20 Sep 2021 – 30 Nov 2022

Royal Welding Wires | Chennai, India | Internship

Key Responsibilities

- Conducted exploratory analysis and requirements gathering for IMS and CRM tools including Inflow, ZOHO One, QuickBooks, and Megaventory, translating business needs into tool evaluation criteria.
- Played a key role in finalising and delivering Customer Relationship Management (CRM) and Inventory Management System (IMS) solutions, coordinating between business stakeholders and the implementation team.
- Contributed to front-end development tasks as part of the implementation team.

EDUCATION

Qualification	Institution / Year / Result
B.E. – Computer Science & Engineering Anna University	SRM Valliammai Engineering College 2019 – 2023 8.8 CGPA
Grade 12 – CBSE	Dr. G.S. Kalyanasundaram Memorial School 2018 – 2019 75.8%
